...providing ecommerce solutions. A highly visible series of initiatives has originated from those often undervalued **partners** in shippers' supply chains-the carriers.

In recent months, both small package and LTL carrier...

...using electronic channels. But the difference between small package and LTL shipping environments mandates very **different** solutions. Here, we take a close look at two information technology initiatives-one from a...  
...a manifest system that he describes as "not very viable."

"We used a number of **different** carriers to ship, and each company used their own stand-alone system. Our warehouses started looking like a rock band, with all these **different** pieces of equipment scattered around for each carrier," he says.

When FDX Corp. came out...in transit.

But this isn't just another "one-stop-shop" shipping solution. It integrates **different** aspects of Mazda's business electronically.. "We have existing forecasting functions in our system," explains...

...the secure site through Roadway's public internet site, www. roadway. com. After entering a **password**, both shippers and receivers can **link** up to their **account information** and gain visibility into current shipment location and billing information.

The difference between this tool...

...s database can quickly latch on to the desired account. If a user wants to **check** shipment or billing status that may have changed while they were logged on, they just...

Abstract (Basic):

... area network in location, and transmits out service setup identification code (SSID) and user's **password** to be **validated**. Users can roam at any time to connect ISP of wireless area network, and enters into **different** mechanisms for paying charges based on time logged on and capacity of transmitted data. Thus, users can move freely without need of changing network card, **account number** or **password** cause by changed areasso as to enjoy real service of wireless area network.
